EXPERIMENT 2

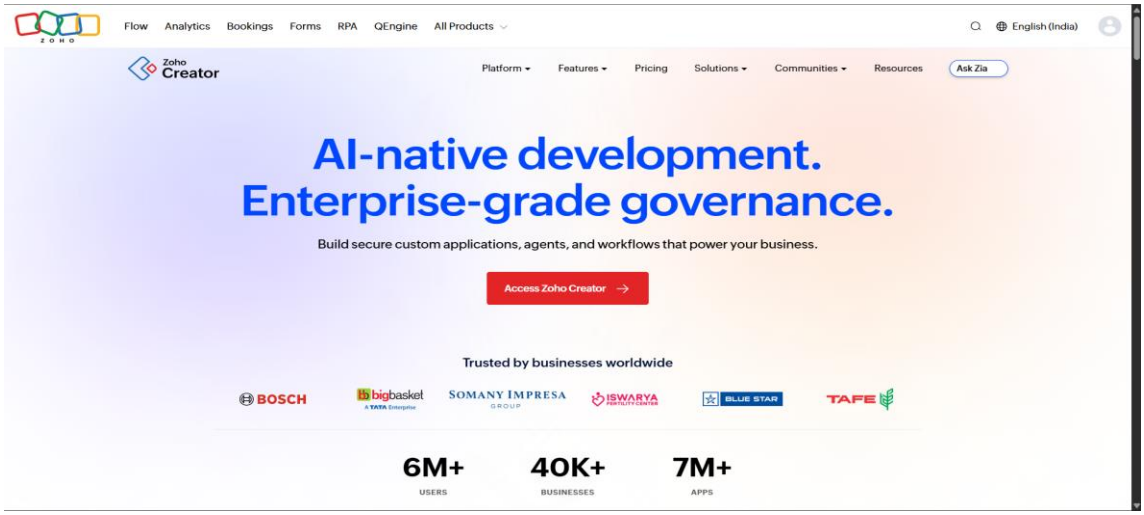

Title: Setting Up a Zoho Creator Account and Exploring the Platform

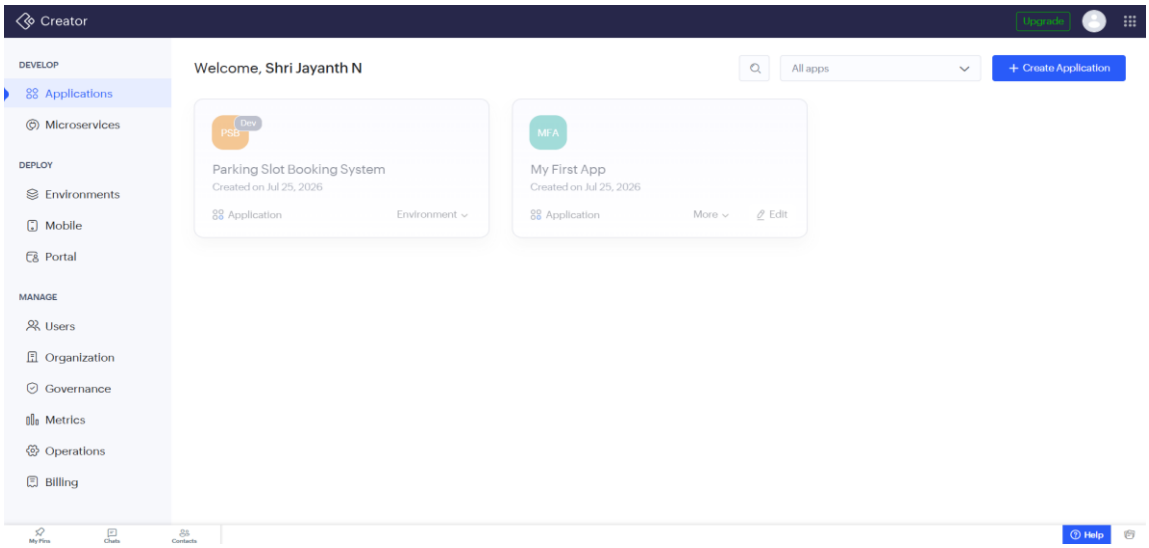

Aim: To create a Zoho Creator account and explore its application development interface.

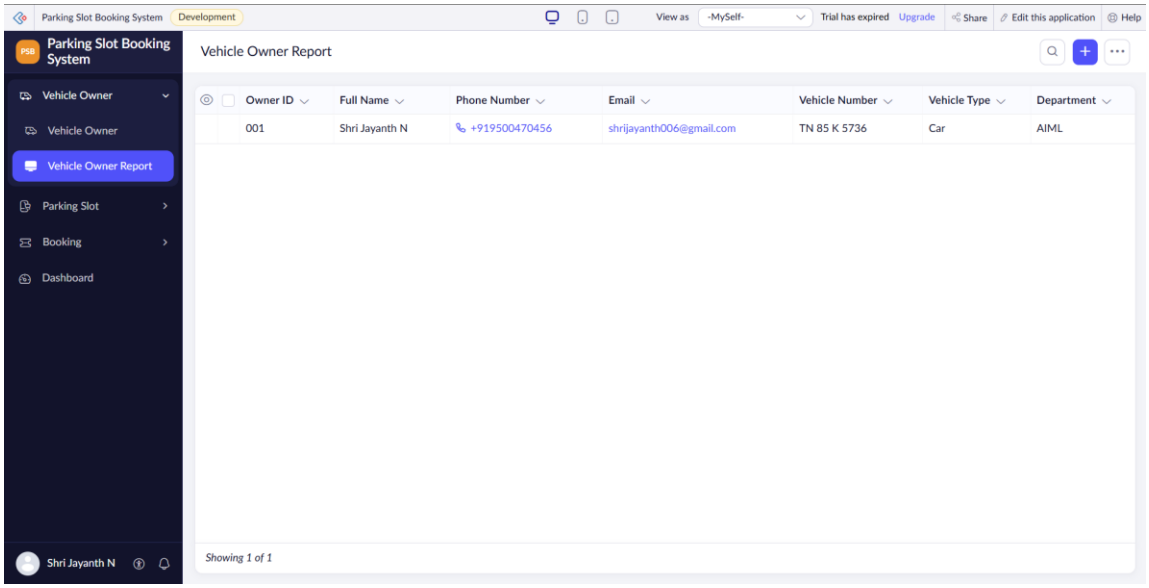

Software Requirements: Zoho Creator, web browser and internet connection.

Procedure:

1. Open the Zoho Creator website and sign in.
2. Access the application workspace.
3. Explore the application dashboard, forms, reports, pages and workflows.
4. Create a new application named Student Records.
5. Open the application builder and examine its available features.

Output: The Student Records application was created, and the Zoho Creator development interface was explored.

Result: The Zoho Creator platform was accessed successfully, and its basic application development features were studied.
